5. Subject. The point for orders is whether the "Mandies" in the new Thanagupet which do not pay water-rate can be given house service connections as hitherto or whether water rate will be ordered to be levied on Sepoy mandies when they apply for house connections. Rules relating to the levy of water-rate and for the order abolishing water-rate on shops please see flags Y & Z. It seems however from the Rules that such of the Mandies as have house connections should be made to pay the water rate & that house connections should be given on this condition

Orders forwarded.

6. Submitted to the Dewan Sahib through the Commissioner 27/1/05

The Mandies also water rate has been levied as in other Cantonments in addition to the usual Scholastic shop or house tax. Recently the Mandies were exempted from the water tax apparently on the ground that they were not using water for domestic purposes. Now these Mandies have applied for house service connections. Question has therefore been raised if such Mandies

No 234

From

THE PRESIDENT,

Municipal Commission,

Bangalore City

To

The Secretary to the Government of H H the Maharaja of Mysore,

General and Revenue Departments,

Bangalore

Sir,

I have the honor to report that most of the mandies in the New Tharagupet paying Mohatarfa tax are partly used for trading and partly for dwelling purposes. House connection from the Hesseraghatta water works used to be given to such mandies before the issue of Government Proceedings No 4647-8/L[X]T 97-99 dated the 28th April 1899, abolishing the Water Rate on mohatarfa paying shops

2 Subsequent to the exemption of mohatarfa shops from water rate the Executive Engineer of the Water Supply and Stores Division on an application sent through this office for house connection to a mandy in the New Tharagupet, raised the question whether connections might be given to shops which are exempted from water rate

3 There is no restriction that mandies in the New Tharagupet should not be used as dwelling houses. There is also nothing in the Rules, published under Government Notification No 904-497[X] dated 2nd September 1899 for the regulation of House connections, excluding mandies shops from the benefit of house connection. But in view of the Government Proceedings quoted above, it is laid down that water rate is leviable only in respect for water used for domestic purposes

4 Under these circumstances, I beg to request for early instructions whether granting of house-connections to mandies may be recommended as hitherto or whether water rate will be ordered to be levied on such of the mandies the owners of which apply for house-connection
